#### Design: How can St. Matthew become even better? (online survey only)

- ☆ Keep growing and being positive
- Trying to put the church and our facilities out there more.
- Have more events directly after church, and example of this is the pancake breakfast
- ₱ My dream is just see the pews full of people again. And I think we do that by convincing people that this
  a safe space from Covid so they can come back.
- 1 think COVID limits the events and options that would create more of a sense of community.

### Design: What can we do at St. Matthew to improve for youth? (online survey only)

- ☆ Make it more fun (like outings)
- → Have a younger person come in to teach a Sunday school classes or something around those marks so they can relate to the kids on a better spectrum.
- For the programs such as confirmation for example, maybe have more times throughout the month, but not for 3 hours, like 2 times a month, but for an hour or something like that
- → Just be more involved with social media. That's what everyone is doing and it's a great way to spread the word to the youth to come to church.
- Having events where youth could connect would be helpful, even events that would act as more opportunities for service that would count towards both high school and their confirmation goals

- <sup>†</sup> "Why can't faith be fun?"
- ⊕ "BCHS is where my faith is. I would like to feel connected to my parish, but I don't."
- The church needs to be more inviting, less old-fashioned."
